When the people running the government are determined to lower trust in everything — including themselves — there is no way to stop them.

"Theres no scientific evidence that suggests not wearing a mask kills people, it's just a conspiracy theory.Masks don't work to prevent the spread of the virus.Children are dying!Because they are wearing masks against an illness that doesn't exist.The face-diaper seriously cuts down your oxygen intake and lowers your immune system against DISEASE. WELLNESS COMMUNITY STATEMENT:

WE CARE
AND
WE STAND
AGAINST QANON.

shannon.algeo • Follow

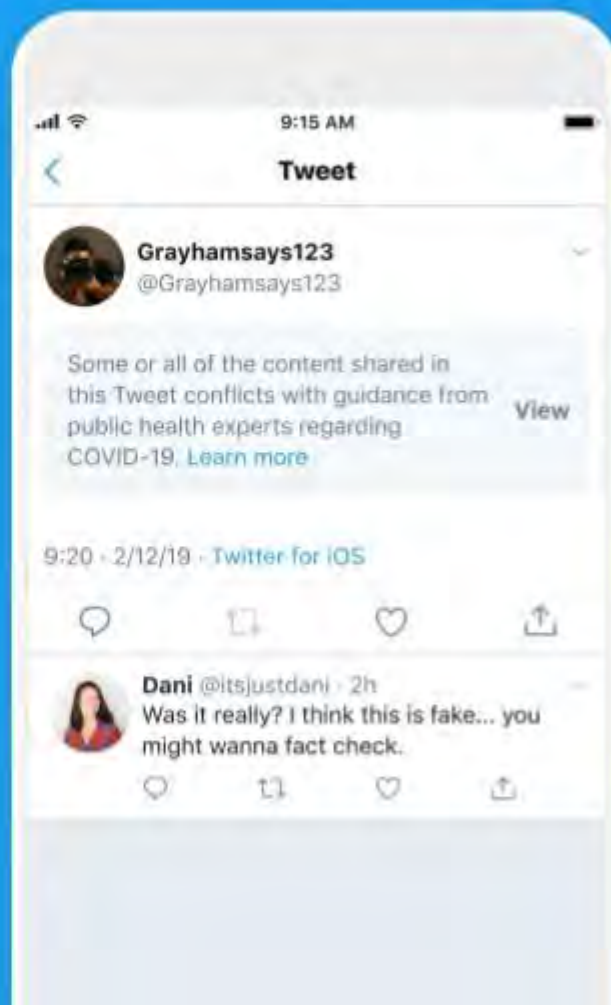

shannon.algeo I've personally seen colleagues in the yoga community fall prey to the dangerous and untrue narratives being spread by QANON. I find it scary and disheartening. This group is taking advantage of sexual abuse survivors, people who care about animal rights, and folks in the yoga and spirituality communities who have counter-cultural leanings. We must stand together against this force of manipulation. We MUST stand up against "conspirituality" and misinformation. The truth matters.

The following statement was written in collaboration by many folks in the wellness community. Please don't credit any single person to its creation

SEPTEMBER 14

A wide-angle photograph of a two-lane asphalt road with a double yellow line, receding into the distance. The road is flanked by dry, scrubby vegetation. In the far distance, a range of mountains is visible under a heavy, overcast sky. The overall mood is contemplative and serene.
